

ELECTRICITY RETROFIT INCENTIVE PROGRAM

List of Qualifying High Temperature Cutout Thermostats

**EVERY
KILOWATT
COUNTS**
FOR BUSINESS

Note: All swine creep heat cut-out thermostats must be CSA/UL/CUL approved, and NEMA 4 or 4X rated. Also, the device must be a line voltage thermostat and specified for agricultural use by the manufacturer or supplier. The Ontario Power Authority does not warrant that the above listing is complete and reserves the right to update the list from time to time.
